WHAT IS TOKEMY WEBAI?

Tokemy WebAI is a fully AI-powered website creation and hosting platform. Your clients describe their business in plain English — the AI builds a complete, professional website in seconds. No code. No designers. No waiting.

■ From idea to live website in under 60 seconds

Type "I sell handmade leather bags in London, premium quality, fast delivery" — and Tokemy WebAI instantly creates a complete, beautiful, mobile-ready website with your content, colors and structure. Live on the web immediately.

HOW IT WORKS — 3 SIMPLE STEPS

1

Describe Your Business

Tell us what your business does in plain English. Our AI reads your description and builds a complete professional website tailored to your industry.

2

Your Website Goes Live Instantly

Your website is immediately published on your own subdomain: `yourname.tokemy.shop` — accessible worldwide, 24/7, from any device.

3

Edit Anything With Plain English

Want to change the title? Add a video? Update your contact info? Just type it. No code, no technical knowledge required — ever.

PLATFORM FEATURES

AI Website Builder

Describe your business and the AI creates a complete, professional website in seconds. Beautiful design, mobile-ready, fully personalized.

Natural Language Editor

Edit any element of your website using plain English. "Change the title", "Add a contact form", "Make the background blue" — done instantly.

Instant Hosting

Your website goes live immediately on yourname.tokemy.shop. No server setup, no technical configuration — just publish and share.

File & Image Upload

Upload logos, photos, PDFs and documents directly to your website panel. Everything organized and served at lightning speed.

Secure Access

Your editor panel is password protected with rate limiting and access logging. Only authorized users can modify your website.

Mobile Optimized

Every website created is fully responsive and optimized for mobile phones, tablets and desktops — automatically.

PRICING PLANS

Simple, transparent pricing. No hidden fees. Cancel anytime.
